Brief description

This 101-square-meter plot is located in Rojales, offering a compact space for building in a well-established area. The plot's size is suitable for a small residential project, allowing for a focused design that maximizes the available land.

Situated within the town of Rojales, the plot benefits from the local infrastructure and amenities typical of this area. Buyers can plan a property that takes advantage of the community's services and accessibility.

The information in this brochure is indicative and subject to availability, documentary confirmation, physical viewing and verification of price, surfaces, condition, taxes and costs before any reservation or contract.
